

The application to the Supporting Q Connections fund has been led by partners keen to explore network weaving in Scotland and to share with all the Nations and regions through a Q Community Network Weavers Special interest group. This Mind Map PDF (which can be enlarged) provides further insights into how we identified need, developed our idea, the output and impact of the proposed project and an overview of costs. This accompanies the application form, budget template and a further Mind Map of a learning needs assessment around Nurturing Network Weaving carried out with partners in Scotland. Thank you for your consideration.
