

SAFETY IMPROVEMENT

COFFEE TRIALS

An opportunity to connect virtually with health and care professionals from across the UK and Ireland on your shared interest of patient safety and quality improvement

What are the Safety Improvement Coffee Trials?

The purpose of the Coffee Trials is to connect people on a 1-1 or small-group basis to enable sharing, learning, collaboration, networking and more.

The coffee trials are short virtual calls (via Zoom) with 1 or 2 peers. The focus of these conversations should be around the implementation of the Patient Safety Incident Response Framework (PSIRF) - the positives and negatives.

Who are these for?

Anyone interested in speaking to other people about PSIRF.

When do they start?

We aim to have the first coffee trial in August 2023 with further connections on a monthly basis until November 2023.

How do I get involved?

Complete the short survey (QR code and link on the right) by the end of July 2023. We will use your responses to match you with people who have a shared challenge or interest.

Experiences around PSIRF and
Safety Improvement

This initiative is supported by the *Supporting Q Connections* programme

Q is led by the Health Foundation
and supported by partners across
the UK and Ireland
